Issue: Revised Submittal Forms
Subject: Next-Gen Kompact

Revised submittal forms for the Kramer Next-Gen Kompact ½ to 6 HP Air Cooled Condensing Units are now available. The edits consist of revising the MCA to a minimum of 15 amps on a number of models and adding the 1 HP low temperature hermetic unit data.

Please discard the old submittal forms and use the new forms. The new forms are available on the website at <http://kramer.htpgusa.com/support/submittals>.

ACTION:

Please contact your representatives and customers and let them about the availability of this update and send them the direct link to the website listed above.
