

# PRODUCT INFORMATION NOTICE

*PIN No:* PRI-39 - Rev 1  
*Date:* August 26, 2015  
*By:* Joe Berry  
*Issue:* Revised Notification  
*Subject:* Hot Gas Defrost Evaporators and  
Condensing units

This notice revises the original document concerning the subject.

Effective immediately, Hot Gas Re-Evaporator vessels (HEA's) are no longer being produced and are not available for order. In addition, Condensing unit, HG-RE re-evaporator kits are no longer available for installation on D-Series or V-Series condensing units. Listings for these items have been removed from the latest price lists posted on the Russell Website. See the link below.

[http://russell.htpghusa.com/images/pdfs/RLP\\_3\\_2015%20R5.pdf](http://russell.htpghusa.com/images/pdfs/RLP_3_2015%20R5.pdf)

Replacement evaporators continue to be available for order with pricing found in the current price lists. Future quotes and orders for Hot Gas defrost **systems** should utilize High Sierra products or Kramer Thermobank systems.

The original statement shown below has been modified (above).

~~Effective immediately all Hot Gas Re-Evap unit coolers, condensing units and replacement heat-exchanger accumulators are discontinued and are no longer available. Models affected are listed below.~~

- ~~• AH model All-Temp2B unit coolers~~
- ~~• ITH model Inter-Temp unit coolers~~
- ~~• UHM and UHL Ultra-Temp unit coolers~~
- ~~• Hot Gas Re-Evap Defrost kits for D-Series and V-Series condensing units~~

~~Catalog literature and price sheets will be amended, reprinted and posted to the websites as quickly as possible.~~

## **ACTION:**

Please notify your representatives and customers of these changes / corrections.
