* If defrost timer/contacter is ordered with a medium temperature unit it becomes M44.

† Dual Compressor Unit piped in parallel and supplied with oil equalization system and oil separator.

NOTES

1. Item shipped loose.
2. Condenser FLOOD CONTROL must be used with HOT GAS BYPASS or cylinder unloading option. HOT GAS BYPASS requires field installed hot gas line to side port distributor on evaporator.
3. Pricing is based on maximum available number of unloading steps for each condensing unit. Some compressors can offer fewer steps.
4. HOT GAS BYPASS and cylinder unloading are typically used in medium temperature applications.
5. Factory mounted option.
