

# PRODUCT INFORMATION NOTICE

*PIN No:* TCO-44 Rev. 1  
*Date:* January 4, 2016  
*By:* Karen Alvarado  
*Issue:* Next-Gen Uni-Pak ½ to 6 HP revisions  
*Subject:* Next-Gen Uni-Pak Literature Update

The following revisions have been made to ColdZone's Next-Generation Uni-Pak ½ to 6 HP Multi-Refrigerant Air Cooled Condensing Unit literature (CZ-CFH-1115B):

- Expanded nomenclature to include Pre-assembly Codes for Extended Range models. These pre-configured models will be stocked in our finished goods warehouses for quicker customer turnaround.
  - Blank = Standard configuration.
  - T = Includes mechanical air defrost timer in lieu of electronic air defrost timer.
  - L = Includes ED-kit with electronic timer in lieu of air defrost timer.
  - LT = Includes ED-kit with mechanical timer in lieu of air defrost timer.

These pre-assembly codes are only for the purpose of identifying finished goods that include optional components. Do not use these codes when ordering units to be built on the production line.

- Updated MCA electrical data for hermetic and scroll models.

Please refer to the ColdZone Next-Gen Uni-Pak product catalog CZ-CFH-1115B for up-to-date information and available options. The PDF is posted on the website at <http://coldzone.htpgusa.com/products/condensing-units2/single-circuit> and printed copies can be ordered from the ColdZone Sales Office by phone (800) 772-2653 or fax (714) 529-8503.

## **ACTION:**

Distribute this information to your Reps and customers as required. Retain this notice for future reference.
