

PRODUCT INFORMATION NOTICE

PIN No: LIT-72
Date: September 20, 2016
By: Karen Alvarado
Issue: Notification
Subject: Quantum Air™ large condensers and Unicon small condensers

The new Quantum Air™ Remote Air Cooled Condenser models have been announced and are available to order. The Quantum Air condensers have many features and upgrades focusing on performance, energy efficiency, and accessibility. Advances include hinged leg and fan panel designs, heavy duty lifting eyes, lighted control panel, and a patented floating coil design that eliminates potential damage from operational vibrations.

The Quantum Air models are large condensers and utilize a new model number nomenclature. Refer to the Quantum Air product brochure [KM-KDS-0816A](#) for a complete listing of features, options, nomenclature and performance.

Unicon small air cooled condensers now have a separate product brochure [KM-KDX-0816A](#). The small condenser models maintain the Unicon model number nomenclature. Please refer to this new product brochure for detailed condenser information.

Please note: KM-KDS-0816A and KM-KDX-0816A product brochures replace the Unicon KM-KDS-0414A product brochure and all previous versions.

Please refer to the Kramer Quantum Air KM-KDS-0816A and Small Air Cooled Condenser KM-KDX-0816A product brochures for up-to-date information. The PDFs are posted on the website at <http://kramer.htpgusa.com/literature/air-cooled-condensers-literature/air-cooled-condensers-literature> and printed copies can be ordered from the literature warehouse by using the form on the website at <http://kramer.htpgusa.com/literature/order-literature/air-cooled-fluid-cooler-literature>.

ACTION:

Distribute this information to your Reps and customers as required. Please update your Kramer catalog with these new product brochures and retain this notice for future reference.
