Subject: Inter-Flo Medium Profile Unit Coolers Update

By: Raleigh Thompson

PIN #: W-LIT-80

Issue: Nozzle Selection and New
Refrigerants

Date: 11/06/2018

The following changes have been made to the Witt Inter-Flo Medium Profile Unit Coolers brochure for product updates, new refrigerants, and add distributor nozzle and expansion valve selections.

- Brochure now reformatted to current Witt design
- Updated R404A BTUH capacities and included R407A, R448A, and R449A/B BTUH capacities
- Added distributor nozzle and expansion valves for air, electric and hot gas defrost models
- Removed optional heat exchanger and re-evap heat exchanger
- Changed hot gas re-evap to hot gas 3 pipe

Action:

Please let your customers know of these product changes. The revised brochure WT-IFA-0818A replaces WT-IFA-0712A. The updated brochure is available in PDF format only at this time and will be posted on the website.
