

# PRODUCT INFORMATION NOTICE

*PIN No:* TEC-14  
*Date:* March 2012  
*By:* K Wessells  
*Issue:* 3/16/12  
*Subject:* WCS/WCL/WCE/WCM/WFL/WFS/WFE

## **WCS/WCL/WCE/WCM/WFS/WFL/WFE Phase Out**

Witt models WCS/WCL/WCE/WCM are being phased out and replaced by the Witt models WDS/WDD that were released in September 2011. The legacy models referenced above will be available through the last call for orders on April 27, 2012. After that point, all Witt air cooled condenser orders must be submitted for the WDS/WDD models. This product consolidation is an effort to simplify the product offering and further enhance our product features. Further details can be obtained from the product literature available on the Witt website, <http://witt.htpgusa.com>

### **WDS/WDD Product Features:**

- Narrow body design on all double wide configurations
- Enhanced tube surfaces on all models
- 3/8" tubing 1 to 4 fans long, 1/2" 5 to 7 fans long
- New robust leg design
- Standard vertical unit shipment
- New intelligent model number structure
- Standardized coil and header circuiting
- New 900 RPM EC fan motor option

### **Affected Models:**

<b>Phased Out:</b>		<b>Replaced By:</b>
WCS	WFS	WDS
WCL	WFL	WDD
WCE	WFE	
WCM		

**Last Call for Orders: April 27, 2012**

**Action:** Please place this bulletin in your catalog and retain this notice for future reference.
