Issue:

Subject: **Electronically Commutated Motors**

California Energy Commission Title 20 specifies that effective January 1, 2008, walk-in coolers and freezers installed in California, that evaporators with single phase motors that are less than 1HP and less than 460V shall be manufactured with electronically commutated motors.

The following product literature includes electrical data and an energy analysis chart for ECM motors.

- All-Temp 2B Publications No. 100.14
- Ceiling-Temp Publications No. 119.5
- Flow-Temp Publications No. 110.9
- HTA All-Temp 2B Publications No. 100.14

ACTION:

The above literature has been changed to reflect this update and can be found on the brand specific website.

Please place this bulletin in your catalog and the notice in your **PIN** manual for future reference.
